STATINTL

MEMORANDUM FOR: [REDACTED]

SUBJECT: Intermediate Intelligence Course
(Scientific)

1. Subject course has now been completed by sixteen analysts from OSI, ten from OCD, and three from OO. In its present form it represents considerable development in the interest of student needs in contrast to the curriculum of the first offering.

2. The attainment of the course objectives is in large measure due to the competence of those who have introduced and guided subject matter discussions. I wish to express thanks and appreciation to you for your informative and interesting treatment of current intelligence production. Student reaction was most favorable and their comments were highly complimentary.

MATTHEW BAIRD
Director of Training
